Gladstone Company Installs Hydrants

GLADSTONE, Oct. 20— Firemen of Gladstone have installed two fire hydrants in the village to protect homes and railroad properties. Water is pumped from the James River into a nearby storage tank. This newest fire protection, according to a spokesman, is part of the modernization program by Gladstone volunteers who now have their own truck, fire house, and fire fighting equipment.

Bro. Christian Carter at Gladstone. He tells me that some 200 pay checks are issued to C&O employees at Gladstone. Part of this is for special maintenance crews, etc., who come in from Covington or Clifton Forge. While in the area, they live in home trailers, or at the YMCA Building, and he tells me of what a success they are having with the new Gladstone Volunteer Fire Company. And the drinking water! It comes from a C&O spring famous for its medicinal quality. The ladies are going all out for an Auxiliary, and they had a long-to-be-remembered 'supper'' on the agenda. Think the Times- Virginian News Editor, Mrs. Martha Stimpson, was writing that up.

Martin, Jr., Supervisor for Stonewall District; Richard M. Webb, Supervisor, Clover Hill District, or D. A. Conner.

Go in person if you can. Carry the members of your family who vote, and ask your friends and neighbors to go out and vote Tuesday, Nov. 5, General Election Day.

Thanks, Charles T. Moses

Why Did They Drive 500 Miles To Fish!

Dr. C. G. O'Brien, Dutch Jamerson, Lewis Doss, Larry Young and Russel Turnes spent two days on a fishing trip to Virginia Beach and came in late Friday with about six pounds of fish between them, small ones On Saturday afternoon, Mrs. Larry Young went down to Beckwood and within 20 minutes after getting down there, she pulled in a 4 and three-fourth pound bass. This is the largest one that she has caught this year but set the record of catching one two years ago that weighed 7½ pounds. Does this make them feel bad? No! They had a wonderful time traveling but had a hard time finding the fish.

Mrs. E. Coleman 102 Years Old

OAKVILLE, Oct. 24 — "Happy Birthday" to Mrs. Eddie Coleman, she was 102 years old the 18th.

Panthers Down Nelson 26-6

The Panthers of Carver-Price displayed a balanced running and passing attack Friday for a 26-6 football victory over winless Nelson Memorial.

Carver - Price pounded out long ground yardage behind the strong running of Edward Lockett before halfback Robert Trent scampered 5 yards to pay dirt. Lockett's conversion was good for a 7-0 lead in the first quarter. With two minutes left in the first half, the Panthers struck again on a 0 yard pass from quarterback Walter Turner to split end Steve Watson. At the half the count had Carver-Price ahead 14-0.

In the third period, Nelson Memorial capitalized on a sudden mental lapse of Panther defenders and finally scored on a 1 yard plunge by Walt Bailey.

In the fourth quarter, the Panthers garnered the steam and rolled over Nelson for two more scores. The first was on an explosive 33 yard run by workhorse Robert Trent for his second score of the day. The final score came on the most electrifying play of the game when Walter Turner, back on his goal line, passed down the middle to Steve Watson on the 5 yard line, Watson cut across the field twice and a final block by guard Kenneth Fitch on Nelson's 20 yard line shook him loose to cap the 95 yard touchdown play.

The defense, bolstered by front line stalwarts Carlton Pennix, Wayne Franklin, Jesse Lwis and defensive end John Watson, kept Nelson bottled-up for most of the afternoon.

The Panthers are now 2-1 in the district play and 2-3 over all and will be seeking their third straight victory when they clash with the junior varsity of Burley High School, Charlottesville at the City Ball Park, Thursday afternoon.

Seventh-day Adventist Church World Temperance Day, Oct. 26

We will never understand the danger of alcoholism until we accept the fact that alcohol is a potentially addiction producing drug.

So said Mrs. Robert H. Fore, Temperance Secretary of the Seventh-day Adventist Church of Appomattox, as she invited members to unite with other adventist churches in supporting their world temperance program next Sabbath, Oct. 26.

Mrs. Fore, quoting from an article in "Listen" magazine, an educational publication published by the denomination to encourage an alcohol — and narcotics free way of life said, "It is quite possible to be a moderate drinker for years and then under stress become an alcoholic." "No one ever set out to become an alcoholic she said. Each one began as an occasional drinker, but alcohol can produce an addiction, and this fact must be accepted."

Statistically speaking we have nine million alcoholics and problem drinkers in the United States who directly affect about half our adult population. One in nine who begins to drink is slated for some form of alcohol problem. This statistic can be translated into some meaning in 1963 when you stop to realize that before the year is out we will bury some 350,000 of our alcoholics. Mrs. Fore said, that Adventist who obstain from both alcohol and tobacco, believe the solution to the alcohol problem can be found in education in the home and in the school. "Train up a child in the way he should go and when he is old he will not depart from it." Prov. 22:6.

NEWS *for truck owners who need a new one now*

Things Chevrolet has developed since the last time you bought to give you more for your money:

Double-wall construction. This feature of Chevrolet cabs and the Fleetside pickup body has two advantages. Insulation and sound-deadening material is sandwiched between the two layers of steel in the cab to give you more comfort; in the body, the lower inner wall acts as a buffer against load damage, preserving the outer appearance of the truck.

Suspension to fit the truck. Conventional half- and three-quarter-ton models have independent front suspension with variable rate coils in the rear. Variable rate coils do not "bottom out" as readily.

Mediums and heavies have I-beam suspension with variable-rate leaf springs. It automatically stiffens as the load increases—and vice versa. It means a smoother, flatter ride regardless of load, a better handling truck.

The right engine. Chevrolet never has been in better position to give you the type and size you need for maximum efficiency. Today there are many different capacities of gasoline and diesel Chevrolet truck engines—fours, sixes, V8's.

Stronger frames. Every conventional 1964 Chevrolet truck has a ladder-type frame. This type is more resilient, better able to give with the load and terrain. Its simple design also makes it easier to mount special bodies on the truck. Its riveted side rails are stronger.

Greater model selection. This time you're going to find it a simple matter to pick the exact type of Chevrolet truck for the kind of work you do. In delivery trucks, for instance, in addition to regular panels and pickups, we have eleven different sizes of ready-made walk-in vans, some with full-width rear doors.

Quality and value. Chevrolets today are a lot more truck than your money bought the last time, and yet the price tag is just about the same as 5 or 6 years ago. Call your Chevrolet dealer for information or for a demonstration.
